DETAILED ACTION

Specification

1. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: "the unflattened fold of the upstanding rim additionally prevents the upstanding rim from folding completely flat".

Claim Objections

2. Claims 11-18 are objected to because of the following informalities: in claim 11, line 3, "pore" should read -- pour --. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. Claims 2 and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear how "the unflattened fold of the upstanding rim additionally prevents the upstanding rim from folding completely flat". The disclosure indicates the folded rim provides a biasing effect between the closure and the bottleneck, but no prevention of folding completely flat. Additionally, how does a portion of the rim keep from folding itself flat?

Allowable Subject Matter

4. Claims 1, 3-6, and 9 are allowed.

5. Claims 7 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 11 and 13-18 would be allowable if rewritten to overcome the objection set forth above.

Art Unit: 3727

Response to Amendment

7. Applicant is reminded that all claims must be listed in amendments with a parenthetical phrase indicating the status of each claim. Claim 10 has been canceled and must the number must appear in the body of the listing of claims noted as "(canceled)" in response to this Office action.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

9. In order to reduce pendency and avoid potential delays, Group 3720 is encouraging FAXing of responses to Office Actions directly into the Group at (703) 872-9306. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into Group 3720 will be promptly forwarded to the examiner.

10. It is called to applicant's attention that if a communication is faxed before the reply time has expired, applicant may submit the reply with a "Certificate of Facsimile" which merely

Art Unit: 3727

asserts that the reply is being faxed on a given date. So faxed, before the period for reply has expired, the reply may be considered timely. A suggested format for a certificate follows:

I hereby certify that this correspondence for Application Serial No. _____ is being facsimiled to The U.S. Patent and Trademark Office via fax number (703) 872-7306 on the date shown below:

Typed or printed name of person signing this certificate

Signature _____
